## Dependent Verification Form

Under the rules of the Electrical Welfare Trust Fund (EWTF) coverage for “dependents” includes your dependent children under age 26.

This form enables an EWTF Participant to provide coverage for a dependent child, even if that child does not reside with the Participant due to a divorce, legal separation, or other arrangements by which the Participant and child do not live in the same residence.

By completing and signing this form, you, the EWTF Participant, are verifying that the child is under age 26 and is not eligible to enroll in an employer-sponsored plan through their own employment, or through the employment of their spouse.

You are also agreeing to repay any and all benefits to EWTF in the event your statements prove to be inaccurate, or if the situation changes and your child no longer qualifies as a “dependent” under the EWTF rules as described above.

**I am in agreement with the statements above and will abide by the EWTF rules as described:**
